FreshWay — Board archive index

Smart Logistics (EDSLOG.24) · autumn 2026 · public, from lesson 1

The Executive Board holds the material below. **You can see the titles; you cannot see the content until you ask for it.** That is deliberate: in a company you do not get everything the moment you ask.

#	Item	Who is likely to want it
C1	Investment budget, hurdle rate and required payback	Investment Council, all departments
C2	Contract terms with the three largest suppliers	Incoming transport
C3	Contract terms with the transport subcontractor used at peaks	Outbound transport, Delivery to consumers
C4	Customer complaints and returns, twelve months, by cause	Delivery to consumers, E-commerce
C5	Energy contract and grid connection capacity per DC	**Storage already holds this** — ask them, not the Board
C6	Promotion calendar and promotion results, twelve months	Inventory & SCM, E-commerce
C7	Shrink per category per store, twelve months	Inventory & SCM, Storage
C8	Sickness absence and staff turnover in the DCs	Storage, Orderpicking
C9	**Evaluation of the 2024 automation project that was stopped**	anyone proposing automation
C10	Store property data: lease term, dock type, unloading restrictions	Outbound transport
C11	IT roadmap and current system contracts with end dates	all — relevant for SA2 and SA8
C12	Insurance, liability and food-safety incident file	Storage, Delivery to consumers

How to request something

1. File an **Information Request** (the form is in the course templates). Four fields: what · why · which decision depends on it · **which department might already have this**.
2. **Maximum two requests per department per lesson.**
3. **You will not get an answer during the same lesson.** The Board answers within **two working days**. A request filed in Tuesday's lesson is answered by Thursday.
4. The Board answers in one of three ways: **granted** (the card is attached), **refused with a pointer** (another department already has it — go and ask them), or **partly** (you get one part, with the reason for the rest).
5. Every request and every answer is logged in the **Board Decision Log**.

Why the delay exists. In a company you do not get everything the moment you ask for it. The consequence is deliberate: **you cannot use an Information Request for the sub-assignment you hand in that same lesson.** If you need something, you have to see it coming a week ahead. Planning your information need is part of the work, and the Board will say so if you ask on the day.

Why field 4 matters most. If the answer already sits with a colleague, the Board will refuse and send you there. Ask your colleague before you ask the boss — that is the whole point of the councils.

> **GenAI transparency.** This index was written with Claude (Anthropic) by the course team as part of the FreshWay case design. Human-AI Agency Label: **Co-Creator**. Label source: Boetje, J., & Baake, G. (2026). *Nine prototypical human-AI agency patterns* [Figure]. figshare. https://doi.org/10.6084/m9.figshare.31706884 (CC BY 4.0).
