Any form, no word limit. What counts is that a reader can trace every claim and every step.

FreshWay

Same as always: APA7

Figures and tables

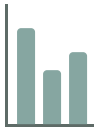

Figure 1
Title in Italics
Note. Data from …

Number and title above, source in a note below. Axes labelled, with units.

Sources

… as the study shows (Author, 2025).

Author, A. (2025). *Title*. Publisher.

A citation in the text and a full entry in the reference list.

Generative AI

I used ChatGPT (OpenAI, 2025) to …

OpenAI. (2025). *ChatGPT* [Large language model]. https://chatgpt.com/

Say what you used it for and cite the tool. For a figure, in its note.

+ the Windesheim GenAI declaration

New in this course

1 Traceable reasoning

suppliers.csv, edi_desadv
filter + calculation
conclusion, then advice

Show this path for every recommendation: from data or source, via calculation or argument.

2 Evidence per claim

171,000 cases per day
Company dossier, A2
Assumption + why it holds

A number, a unit and a source. No source? Then the label “Assumption”.

3 Title is the insight

Central DC ships more than both regional DCs together

Say what the figure shows in one sentence, and make that sentence its title.

4 Generated images

Illustration (generated)

Label them. Never show one as data, or as technology that already exists.

5 Rubric map

Final product

Criterion 1	page 4, figure 2
Criterion 2	slides 6–9
Criterion 5	appendix

The appendix for criterion 5 holds your Cross-deliveries, confirmations and Interface Agreements.

6 Website snapshot

Final product

zip or PDF
hand-in date

On Brightspace. We assess the snapshot, so test it logged out on another computer.

Go through this with your department before every hand-in. Full checklist on Brightspace. The assignment and the rubric are leading.
Transparency GenAI: made together with GenAI (Claude, Anthropic) from the lecturers’ requirements, and checked by the lecturers.
